

SD HOSA Event Competitions and Online Tests 2016-17

Many South Dakota HOSA events involve a Round 1 online test. In order to compete, all competitors must be affiliated members with HOSA. **Students may compete in two events.** However, the events must be in separate categories (unless you are competing in the 'Health Care Team' Event). In that case, a student MAY compete in another Team Event.

Team tests must be taken individually. The tests will be averaged for a Round 1 score. Teams should be encouraged to take the test simultaneously, but I do understand this may be difficult to do with the busyness of students. Please remember that if you have 2 teams competing in an event that the teams are designated as *Team #1 and Team #2*.

Some events are testing ONLY events (ie: Medical Terminology) and are taken online BEFORE the State Conference with a testing window from **February 27-March 21, 2017** along with other Round 1 tests. Awards for these testing only events will be given at the final Awards Session on Friday, April 1, 2016.

Below is a chart of all HOSA events taking place at 2017 SD HOSA State Leadership Conference:

HEALTH SCIENCE EVENTS	ONLINE TESTING	TEST LENGTH	STATE CONFERENCE
Dental Terminology	Yes	90min/100ques	Test Only-No Round 2
Medical Math	Yes	90min/50ques	Test Only-No Round 2

Health Care Issues Exam	Yes	60min/50ques	Test Only-No Round 2

Please review the guidelines for your competitor's desired event- www.hosa.org/node/117 .

Registration for online testing will open **January 9, 2017** and will close on **February 17, 2017**. Testing will be conducted from **Feb. 27-Mar. 21, 2017**. Instructions will be sent to you and the assigned proctor once all of your students have been registered and you have registered a proctor. Affiliation, conference registration, and registering a proctor can all be done here – www.hosa.org/hosaconf.

The online testing format will allow more freedom for students to participate in other activities at the state conference. If you have any concerns or questions, please contact me at 605.357.1576 or email me at Brock.Rops@usd.edu

We are starting to get larger numbers in the events, so some events involving a Round 2 are going to be determined by their Round 1 test scores.
